Recovery Project Grants Available: Supporting Recovery from Substance Misuse

Sandwell Council's Public Health Team are inviting local Voluntary and Community Sector groups and organisations to apply for Recovery Project Grants to support people who are aged 18 and over and who are recovering from drug and/ or alcohol misuse.

Recovery from drug and alcohol misuse is much more than reduced use of or abstinence from these substances, it is about improving health and well-being, building self-esteem, creating new social networks, education, volunteering, and employment. Local organisations can support this through the provision of innovative non-clinical projects which sit beyond the traditional remit of specialist drug and alcohol misuse services.

Applications should seek to meet one or more of the following objectives:

1. Improving the health and well-being of people recovering from drug and/ or alcohol misuse through the provision of positive activities.
2. Supporting people in recovery from drug and/ or alcohol misuse to develop new skills.
3. Promoting community and social inclusion by reducing stigma related to drug and/ or alcohol misuse.
4. Supporting the development of a sustainable and local recovery community.

Constituted voluntary and community groups working within the borough can apply for grants of between £5,000 and £15,000 to support activity from April 2024 to March 2025.

The closing date for applications is **midday on Friday 5th April 2024.**

Five Ways to Wellbeing

For Treatment or Recovery to be successful you need a plan, that will be a care plan or recovery plan agreed with your keyworker in a treatment or recovery service but what plan will you make for yourself when you've left the service?

In issue #7 we introduced the Five Ways to Wellbeing - five simple activities to improve your Mental Health & Wellbeing. Wellbeing is about feeling good and doing well in your day-to-day life. It includes feeling positive, having a sense of purpose, belonging and being able to cope with problems and change. The biggest difference we can make is to develop awareness and skills to help us look after and think about our own wellbeing. Each month we will focus on one of the Five Ways to Wellbeing (5W2W), actions we can all do to improve our wellbeing and how we feel.

Connect

Connecting with the people around us is a great way to remind ourselves that we're important and valued by others. Being connected to others is the number one factor in maintaining mental wellbeing into old age, so it is important for us all to build and maintain social networks in our lives.

Here are some suggestions for staying connected:

- Arrange to meet people regularly.
- Join a local group or activity. There are nine recovery projects listed here on pages 7-10, join one and meet new people in recovery. Or there are hundreds of groups and activities around Sandwell in the community, many are listed on the following pages.
- Go on monthly dinner dates with friends at each other's homes.
- Reach out to somebody you've lost contact with. Send them a letter, an email or give them a call to let them know you are thinking about them.
- Take some time to get to know your neighbours. Invite them around for a cup of tea.
- If you feel comfortable you could try speaking to someone new, ask how their weekend was.

Connect with the people around you. With family, friends, colleagues and neighbours. At home, work, school or in your local community. Think of these as the cornerstones of your life and invest time in developing them. Building these connections will support and enrich you every day.

Volunteering Portal, Let's Go Sandwell

Whether it's making friends, improving job prospects or boosting confidence, volunteers often gain as much as they give. Take a look to get a current view of who needs help – you may be surprised how your skills could be put to good use, whatever they are. And if you're an organisation looking for volunteer support get in touch to have your opportunities promoted.

ENABLING RECOVERY

These are confidential mutual aid meetings for people affected by the addictive behaviour of someone close to them.

The groups use tools from Cognitive Behaviour Therapy and Rational Emotive Behaviour Therapy in combination with the highly acclaimed **CRAFT (Community Reinforcement and**

Family Training) programme.

The programme is designed to help those affected by a loved one's addictive behaviour to learn new ways of dealing with the challenges, thoughts and emotions that they experience. Sessions are facilitated by someone with personal experience of family members in addiction. Attendance at all meetings is open and no referral is required. Check the dates for meetings that take place on Mondays, details below.

Bring Me Sunshine

Bring me sunshine, in your smile
 Bring me laughter, all the while
 In this world where we live
 There should be more happiness
 So much joy you can give
 To each brand new bright tomorrow
 Make me happy, through the years
 Never bring me, any tears
 Let your arms be as warm
 As the sun from up above
 Bring me fun, bring me sunshine
 Bring me love

What is stigma? From: <https://www.antistigmanetwork.org.uk/what-is-stigma>

"Stigma, stated simply, is a set of negative and often unfair beliefs. Stigma can be experienced on a societal, structural, and personal level. It is employed largely unconsciously but at times also consciously. Either way people harmed by drug and alcohol use are systemically dehumanised, marginalised and discriminated against.

This must change, because it is harmful to us all individually and to society as a whole. Lives are lost, people are shamed, society's progress is limited by stigma.

We must end stigma, because the harms are too great, and because collectively we can. We believe a network of mutual support can move us towards our aim.

And because it is long overdue. People who use, or have used drugs and alcohol, and their family and carers have been excluded from more enlightened approaches to similar health conditions for far too long.

We believe we all have a role to play to educate ourselves and take action."

Sowing the seeds of recovery

If you're looking for help and support around recovery from alcohol or other substances, our Cranstoun Sandwell team is here to help.

We're making sure there's good support in place for people in recovery and looking to build on what's already available.

More than 120 people attended our Roots of Recovery event at Sandwell Council House, Oldbury, in September.

Volunteers from Cranstoun Sandwell with their own experience of substance use helped to run the event, which included stalls from 25 organisations and workshops from Aquarius, Resolve, Trading Standards and Sandwell Council of Voluntary Organisations (SCVO).

Beat It Percussion provided a sound bath relaxation session and we heard from community groups that offer activities for people in recovery.

Contaminated Heroin and Xanax Alert

PLEASE ALERT ANYONE YOU KNOW WHO MAY BE AT RISK

<https://cranstoun.org/news/contaminated-drug-alert/>

There have been confirmed reports in various locations around Britain of unusually strong opioids contained in a number of drugs; heroin, OxyContin (oxycodone) and 'street benzos'. In this alert we are asking people to be extra cautious as these strong opioids may be in widespread circulation, rather than confined to particular areas. There have been a number of recent deaths across Britain linked to them.

These strong opioids contain **fantanyls** and **nitazines** which are **30-500 times stronger** than heroin.

We would advise people who use heroin to be additionally cautious, especially if they inject.

- Go easy: always test a dose and wait for peak effects to pass before taking more especially if injecting, combining different drugs together, or if tolerance has dropped.
- Never use alone or go off by yourself shortly after using. If you cannot use in the company of others contact [BuddyUp](https://cranstoun.org/help-and-advice/harm-reduction/buddyup/) <https://cranstoun.org/help-and-advice/harm-reduction/buddyup/> for remote support that will send help if things go wrong.
- Avoid mixing drugs, but if you are doing so, use far less of each drug than you would usually.

Make sure you always carry naloxone, to reverse the effects of an overdose should one occur. You should have two on your person as you may need to give/be given multiple doses if affected. Contact your Cranstoun Sandwell on 0121 553 1333, if you need more naloxone.

Please help us prevent overdoses in Sandwell, if you see or hear anything of concern please share this with us by emailing sandwellalerts@cranstoun.org.uk, or by calling 0121 553 1333, start by saying "I have a Sandwell alert".
